

**Table 1: ACA Preventive Services Protected or Eliminated under Braidwood**

ACA Preventive Services	ACA preventive services bundle	Does this recommendation overlap with another ACA bundle?	Were revisions made to this recommendation since 2010?	What is the nature of the revision since 2010?*	If Braidwood is upheld, would the service still be protected under the ACA? (ie, no cost-sharing?)	Is this a maternal & infant health (<1 year) preventive service?	Is this a child & adolescent health preventive service? (ages 1-21)
<b>US Preventive Services Task Force (USPSTF)</b>							
Anxiety in Children and Adolescents: Screening: children and adolescents aged 8 to 18 years	USPSTF A or B	WPSI (recommendation lost), Bright Futures (recommendation lost)	Yes	New recommendation added after baseline	No		X (8-18 years old)
Aspirin Use to Prevent Preeclampsia and Related Morbidity and Mortality: Preventive Medication: pregnant persons at high risk for preeclampsia	USPSTF A or B		Yes	New recommendation added after baseline	No	X	
Breast Cancer: Medication Use to Reduce Risk: women at increased risk for breast cancer aged 35 years or older	USPSTF A or B		Yes	New recommendation added after baseline	No		
Colorectal Cancer: Screening: adults aged 45 to 49 years	USPSTF A or B		Yes	New recommendation added after baseline	No		
Falls Prevention in Community-Dwelling Older Adults: Interventions: adults 65 years or older	USPSTF A or B		Yes	New recommendation added after baseline	No		
Gestational Diabetes: Screening: asymptomatic pregnant persons at 24 weeks of gestation or after	USPSTF A or B	WPSI (recommendation lost)	Yes	Grade changed from I to B	No	X	
Healthy Weight and Weight Gain In Pregnancy: Behavioral Counseling Interventions: pregnant persons	USPSTF A or B		Yes	New recommendation added after baseline	No	X	
Intimate Partner Violence, Elder Abuse, and Abuse of Vulnerable Adults: Screening: women of reproductive age	USPSTF A or B	WPSI (recommendation lost)	Yes	Grade changed from I to B. Modifies recommendation to include women of reproductive age and referral to ongoing supportive services for those who screen positive.	No	X (Does not mention pregnancy or postpartum, but essential to maternal health)	

Murphy, C., Morris, R., Johnson, K., Rosenbaum, S. (June 2023). Braidwood Management v Becerra Could Eliminate Three Quarters of the Affordable Care Act’s Most Important Preventive Benefits for Women, Infants, and Children. The Geiger Gibson Program in Community Health, The George Washington University.

ACA Preventive Services	ACA preventive services bundle	Does this recommendation overlap with another ACA bundle?	Were revisions made to this recommendation since 2010?	What is the nature of the revision since 2010?*	If Braidwood is upheld, would the service still be protected under the ACA? (ie, no cost-sharing?)	Is this a maternal & infant health (<1 year) preventive service?	Is this a child & adolescent health preventive service? (ages 1-21)
Latent Tuberculosis Infection: Screening: asymptomatic adults at increased risk for infection	USPSTF A or B		Yes	New recommendation added after baseline	No		
Lung Cancer: Screening: adults aged 50 to 80 years who have a 20 pack-year smoking history and currently smoke or have quit within the past 15 years	USPSTF A or B		Yes	New recommendation added after baseline	No		
Perinatal Depression: Preventive Interventions: pregnant and postpartum persons	USPSTF A or B		Yes	New recommendation added after baseline	No	X	
Prediabetes and Type 2 Diabetes: Screening: asymptomatic adults aged 35 to 70 years who have overweight or obesity	USPSTF A or B		Yes	New recommendation added after baseline	No	X	
Preeclampsia: Screening: pregnant woman	USPSTF A or B		Yes	New recommendation added after baseline	No	X	
Prevention of Dental Caries in Children Younger Than 5 Years: Screening and Interventions: children younger than 5 years - fluoride varnish	USPSTF A or B	Bright Futures (recommendation lost)	Yes	New recommendation added after baseline	No	X	X (1-5 years old)
Prevention of Human Immunodeficiency Virus (HIV) Infection: Preexposure Prophylaxis: persons at high risk of HIV acquisition	USPSTF A or B		Yes	New recommendation added after baseline	No		
Rh(D) Incompatibility: Screening: unsensitized rh(d)-negative pregnant women	USPSTF A or B		Yes	New recommendation added after baseline	No	X	
Skin Cancer Prevention: Behavioral Counseling: young adults, adolescents, children, and parents of young children	USPSTF A or B		Yes	New recommendation added after baseline	No		X

ACA Preventive Services	ACA preventive services bundle	Does this recommendation overlap with another ACA bundle?	Were revisions made to this recommendation since 2010?	What is the nature of the revision since 2010?*	If Braidwood is upheld, would the service still be protected under the ACA? (ie, no cost-sharing?)	Is this a maternal & infant health (<1 year) preventive service?	Is this a child & adolescent health preventive service? (ages 1-21)
Statin Use for the Primary Prevention of Cardiovascular Disease in Adults: Preventive Medication: adults aged 40 to 75 years who have 1 or more cardiovascular risk factors and an estimated 10-year cardiovascular disease (cvd) risk of 10% or greater	USPSTF A or B		Yes	New recommendation added after baseline	No		
Tobacco Use in Children and Adolescents: Primary Care Interventions: school-aged children and adolescents who have not started to use tobacco	USPSTF A or B	Bright Futures (recommendation lost)	Yes	Grade changed from I to B. Modifies recommendation to provide interventions for prevention of tobacco initiation among patient population.	No		X (school-aged to adolescents)
Unhealthy Drug Use: Screening: adults age 18 years or older	USPSTF A or B	Bright Futures (just adolescents, recommendation lost)	Yes	Grade changed from I to B. Modifies recommendation to recommend screening by asking about "unhealthy drug use". Removes adolescent and pregnant women populations and includes age group (18+)	No	X (Does not mention pregnancy or postpartum, but essential to maternal health)	X (18-21 years old)
Weight Loss to Prevent Obesity-Related Morbidity and Mortality in Adults: Behavioral Interventions: adults	USPSTF A or B	WPSI (recommendation lost)	Yes	New recommendation added after baseline	No		
Hepatitis C Virus Infection in Adolescents and Adults: Screening: adults aged 18 to 79 years	USPSTF A or B	Bright Futures (just adolescents, recommendation lost)	Yes	Upgraded from D to B. Broadens scope by removing high-risk and year of birth (e.g., 1945 and 1965) qualifier (2013 version)	No		X (18-21 years old)

ACA Preventive Services	ACA preventive services bundle	Does this recommendation overlap with another ACA bundle?	Were revisions made to this recommendation since 2010?	What is the nature of the revision since 2010?*	If Braidwood is upheld, would the service still be protected under the ACA? (ie, no cost-sharing?)	Is this a maternal & infant health (<1 year) preventive service?	Is this a child & adolescent health preventive service? (ages 1-21)
Gonorrhea: Screening: sexually active women, including pregnant persons	USPSTF A or B		Yes	Revises recommendation to include all women 24 years and younger, including those at "low risk"	Population lost: Women under 24 with "low risk"	X	
Screening for Depression in Adults: general adult population, including pregnant and postpartum women	USPSTF A or B		Yes	Modifies recommendation to 1) broaden population to "general adult population" and include pregnant and postpartum women; 2) removes qualifier for screening (e.g., "when staff-assisted depression care supports are in place to ensure accurate diagnosis, effective treatment, and followup")	Population lost: Eliminates adults in care settings that don't have "staff-assisted depression care supports"	X	
Unhealthy Alcohol Use in Adolescents and Adults: Screening and Behavioral Counseling Interventions: adults 18 years or older, including pregnant women	USPSTF A or B	Bright Futures (just adolescents, recommendation lost)	Yes	Consolidates alcohol misuse recommendation (adolescent recommendation was previously given a Grade I). Modifies recommendation to screen for "unhealthy alcohol use" rather than "alcohol misuse", includes intervention recommendations for "persons engaged in risky or hazardous drinking," and removes mention of	Population lost: Eliminates adolescent coverage	X (Does not mention pregnancy or postpartum, but essential to maternal health)	X (18-21 years old)

Murphy, C., Morris, R., Johnson, K., Rosenbaum, S. (June 2023). Braidwood Management v Becerra Could Eliminate Three Quarters of the Affordable Care Act's Most Important Preventive Benefits for Women, Infants, and Children. The Geiger Gibson Program in Community Health, The George Washington University.

ACA Preventive Services	ACA preventive services bundle	Does this recommendation overlap with another ACA bundle?	Were revisions made to this recommendation since 2010?	What is the nature of the revision since 2010?*	If Braidwood is upheld, would the service still be protected under the ACA? (ie, no cost-sharing?)	Is this a maternal & infant health (<1 year) preventive service?	Is this a child & adolescent health preventive service? (ages 1-21)
				screening and intervention in primary care settings			
Human Immunodeficiency Virus (HIV) Infection: Screening: adolescents and adults aged 15 to 65 years	USPSTF A or B	WPSI (recommendation lost), Bright Futures (just adolescents, recommendation lost)	Yes	Modifies recommendation to include age group	Population lost: Eliminates coverage of adolescents & adults at "low risk"		X (15-21 years old)
Depression and Suicide Risk in Children and Adolescents: Screening: adolescents aged 12 to 18 years	USPSTF A or B	Bright Futures (recommendation lost)	Yes	Removes qualifier for screening (e.g., when systems are in place to ensure accurate diagnosis, psychotherapy, and follow-up)	Population lost: Eliminates all children and adolescents in care settings that don't have "systems in place" for diagnosis, therapy, and follow-up		X (12-18 years old)
Chlamydia: Screening: sexually active women, including pregnant persons	USPSTF A or B		Yes	Updated to include women 25 years and older with "low risk"	Population lost: Eliminates women 25 and older with "low risk"	X	
Healthy Diet and Physical Activity for Cardiovascular Disease Prevention in Adults With Cardiovascular Risk Factors: Behavioral Counseling Interventions: adults with cardiovascular disease risk factors	USPSTF A or B		Yes	Broadens recommendation to encompass adults with cardiovascular disease risk factors, rather than adults with hyperlipidemia and other risk factors for cardiovascular disease. Removes mention of providers that can provide counseling.	Population lost: Eliminates adults who don't have hyperlipidemia		

ACA Preventive Services	ACA preventive services bundle	Does this recommendation overlap with another ACA bundle?	Were revisions made to this recommendation since 2010?	What is the nature of the revision since 2010?*	If Braidwood is upheld, would the service still be protected under the ACA? (ie, no cost-sharing?)	Is this a maternal & infant health (<1 year) preventive service?	Is this a child & adolescent health preventive service? (ages 1-21)
BRCA-Related Cancer: Risk Assessment, Genetic Counseling, and Genetic Testing: women with a personal or family history of breast, ovarian, tubal, or peritoneal cancer or an ancestry associated with brca1/2 gene mutation	USPSTF A or B		Yes	Recommendation expands on 1) types of cancers for assessment (adds tubal and peritoneal cancer), 2) specifies assessment by primary care clinicians, 3) provides for the use of a risk assessment tool; and 4) suggests a staged approach based on risk assessment screening (e.g., counseling first, then genetic testing)	Essential post-2010 elements eliminated		
Cervical Cancer: Screening: women aged 21 to 65 years	USPSTF A or B		Yes	Consolidates cervical cancer recommendations into one recommendation that provides distinct recommendations by age groups (e.g., 21-29 years, 30 - 65 years). Removes recommendation for cervical cancer screening for women who are sexually active, aged 65+ years and who have had a hysterectomy.	Essential post-2010 elements eliminated		
Colorectal Cancer: Screening: adults aged 50 to 75 years	USPSTF A or B		Yes	Expands on recommended screening strategies (e.g., stool DNA-FIT)	Essential post-2010 elements eliminated		

ACA Preventive Services	ACA preventive services bundle	Does this recommendation overlap with another ACA bundle?	Were revisions made to this recommendation since 2010?	What is the nature of the revision since 2010?*	If Braidwood is upheld, would the service still be protected under the ACA? (ie, no cost-sharing?)	Is this a maternal & infant health (<1 year) preventive service?	Is this a child & adolescent health preventive service? (ages 1-21)
Hypertension in Adults: Screening: adults 18 years or older without known hypertension	USPSTF A or B		Yes	Expands recommendation to include screening with office blood pressure measurement (OBPM) and obtaining OBPM outside of the clinical setting for diagnostic confirmation before starting treatment	Essential post-2010 elements eliminated		X (18-21 years old)
Osteoporosis to Prevent Fractures: Screening: postmenopausal women younger than 65 years at increased risk of osteoporosis	USPSTF A or B		Yes	Modifies recommendation to 1) qualify women by adding "postmenopausal"; 2) identifying risk status with the use of a formal clinical risk assessment tool; and 3) removing mention of screening for younger women whose fracture is equal to or greater than that of a 65-year-old white woman who has no additional risk factors	Essential post-2010 elements eliminated		
Tobacco Smoking Cessation in NonPregnant Adults: Interventions	USPSTF A or B		Yes	Modifies recommendation to recommend the provision of behavioral health interventions and FDA-approved pharmacotherapy for cessation to the patient population who use tobacco	Essential post-2010 elements eliminated		
Tobacco Smoking Cessation Pregnant Persons: Interventions	USPSTF A or B		Yes		Yes	X	

ACA Preventive Services	ACA preventive services bundle	Does this recommendation overlap with another ACA bundle?	Were revisions made to this recommendation since 2010?	What is the nature of the revision since 2010?*	If Braidwood is upheld, would the service still be protected under the ACA? (ie, no cost-sharing?)	Is this a maternal & infant health (<1 year) preventive service?	Is this a child & adolescent health preventive service? (ages 1-21)
Prevention of Dental Caries in Children Younger Than 5 Years: Screening and Interventions: children younger than 5 years - fluoride supplementation	USPSTF A or B	Bright Futures (recommendation lost)	Yes		Yes	X (from 6 months or eruption of first teeth)	X (1-5 years old)
Asymptomatic Bacteriuria in Adults: Screening: pregnant persons	USPSTF A or B		Yes	Grade changed from A to B	Yes	X	
Hepatitis B Virus Infection in Adolescents and Adults: Screening: adolescents and adults at increased risk for infection	USPSTF A or B	Bright Futures (just adolescents, recommendation lost)	Yes	Modifies recommendation to broaden population (e.g., removes mention of asymptomatic adults)	Yes		X (adolescents)
Human Immunodeficiency Virus (HIV) Infection: Screening: pregnant persons	USPSTF A or B	WPSI (recommendation lost)	Yes		Yes	X	
Osteoporosis to Prevent Fractures: Screening: women 65 years and older	USPSTF A or B		Yes	Bifurcates earlier recommendation	Yes		
Sexually Transmitted Infections: Behavioral Counseling: sexually active adolescents and adults at increased risk	USPSTF A or B		Yes	Modifies the kind of behavioral counseling recommended from "high-intensity behavioral counseling" to "behavioral counseling"	Yes		X (sexually active adolescents)
Abdominal Aortic Aneurysm: Screening: men aged 65 to 75 years who have ever smoked	USPSTF A or B		No		Yes		
Breast Cancer: Screening: women aged 50 to 74 years	USPSTF A or B	WPSI (recommendation lost)	No		Yes		

ACA Preventive Services	ACA preventive services bundle	Does this recommendation overlap with another ACA bundle?	Were revisions made to this recommendation since 2010?	What is the nature of the revision since 2010?*	If Braidwood is upheld, would the service still be protected under the ACA? (ie, no cost-sharing?)	Is this a maternal & infant health (<1 year) preventive service?	Is this a child & adolescent health preventive service? (ages 1-21)
Breastfeeding: Primary Care Interventions: pregnant women, new mothers, and their children	USPSTF A or B	WPSI (recommendation lost), Bright Futures (recommendation lost)	No		Yes	X	
Folic Acid for the Prevention of Neural Tube Defects: Preventive Medication: women who are planning or capable of pregnancy	USPSTF A or B		No		Yes	X	
Hepatitis B Virus Infection in Pregnant Women: Screening: pregnant women	USPSTF A or B		No		Yes	X	
Obesity in Children and Adolescents: Screening: children and adolescents 6 years and older	USPSTF A or B	Bright Futures (recommendation maintained)	No		Yes		X (6 and older)
Ocular Prophylaxis for Gonococcal Ophthalmia Neonatorum: Preventive Medication: newborns	USPSTF A or B		No		Yes	X	
Rh(D) Incompatibility: Screening: pregnant women, during the first pregnancy-related care visit	USPSTF A or B		No		Yes	X	
Syphilis Infection in Nonpregnant Adolescents and Adults: Screening: asymptomatic, nonpregnant adolescents and adults who are at increased risk for syphilis infection	USPSTF A or B	Bright Futures (just adolescents, recommendation maintained)	Yes	Expands on patient population to include adolescents. Adolescent coverage maintained via Bright Futures.	Yes		X (adolescents)
Syphilis Infection in Pregnant Women: Screening: pregnant women	USPSTF A or B		No		Yes	X	

ACA Preventive Services	ACA preventive services bundle	Does this recommendation overlap with another ACA bundle?	Were revisions made to this recommendation since 2010?	What is the nature of the revision since 2010?*	If Braidwood is upheld, would the service still be protected under the ACA? (ie, no cost-sharing?)	Is this a maternal & infant health (<1 year) preventive service?	Is this a child & adolescent health preventive service? (ages 1-21)
Vision in Children Ages 6 Months to 5 Years: Screening: children aged 3 to 5 years	USPSTF A or B	Bright Futures (recommendation maintained)	No		Yes		X (3-5 years old)
<b>Women's Preventive Services Initiative (WPSI)</b>							
Screening for Anxiety	WPSI	USPSTF (recommendation lost)	Yes	WPSI and USPSTF recommendations not added until post-2010	No	X (Does not mention pregnancy or postpartum, but essential to maternal health)	X (19-21; already counted 8-18 in USPSTF)
Screening for Gestational Diabetes Mellitus	WPSI	USPSTF (recommendation lost)	Yes	WPSI and USPSTF recommendations not added until post-2010 (USPSTF recommendation was "I" in 2010)	No	Already counted above	
Screening for Diabetes Mellitus After Pregnancy	WPSI		Yes	WPSI recommendation not added until post-2010	No	X	
Contraception	WPSI		Yes	WPSI recommendation not added until post-2010	No	X	X
Preventing Obesity in Midlife Women	WPSI	USPSTF (recommendation lost)	Yes	WPSI and USPSTF recommendations not added until post-2010	No		
Screening for Interpersonal and Domestic Violence	WPSI	USPSTF (recommendation lost)	Yes	WPSI recommendation not added until post-2010	No	Already counted above	

ACA Preventive Services	ACA preventive services bundle	Does this recommendation overlap with another ACA bundle?	Were revisions made to this recommendation since 2010?	What is the nature of the revision since 2010?*	If Braidwood is upheld, would the service still be protected under the ACA? (ie, no cost-sharing?)	Is this a maternal & infant health (<1 year) preventive service?	Is this a child & adolescent health preventive service? (ages 1-21)
Well-Woman Preventive Visits	WPSI		Yes	WPSI recommendation not added until post-2010	No	X (Does not mention pregnancy or postpartum, but essential to maternal health)	X
Screening for Urinary Incontinence	WPSI			WPSI recommendation not added until post-2010	No		
Behavioral Counseling for STIs	WPSI		Yes	WPSI recommendation not added until post-2010	No		Already counted above
Screening for HIV Infection	WPSI	USPSTF (recommendation maintained only for "high risk" and pregnant persons)	Yes	WPSI recommendation added post-2010, USTPSTF recommendation existed pre-2010 but only for pregnant persons	Population lost: "Low risk" persons		
Screening for Cervical Cancer	WPSI	USPSTF (recommendation maintained, but important post-2010 elements lost)	Yes	WPSI recommendation not added until post-2010; USPSTF recommendation existed pre-2010 but has since incorporated important age-specific recommendations (e.g., 21-29 years, 30 - 65 years)	Essential post-2010 elements eliminated		

ACA Preventive Services	ACA preventive services bundle	Does this recommendation overlap with another ACA bundle?	Were revisions made to this recommendation since 2010?	What is the nature of the revision since 2010?*	If Braidwood is upheld, would the service still be protected under the ACA? (ie, no cost-sharing?)	Is this a maternal & infant health (<1 year) preventive service?	Is this a child & adolescent health preventive service? (ages 1-21)
Breastfeeding Services and Supplies	WPSI	USPSTF (recommendation maintained), Bright Futures (recommendation lost)	Yes	WPSI recommendation not added until post-2010; but USPSTF recommendation existed pre-2010	Yes	Already counted above	
Breast Cancer Screening for Average-Risk Women	WPSI	USPSTF (recommendation maintained)	Yes	WPSI recommendation not added until post-2010; but USPSTF recommendation existed pre-2010	Yes		
<b>Bright Futures</b>							
Blood Pressure Measurements	Bright Futures		Yes	New recommendation after baseline. Went into effect in 2019; updated notes/ references in 2021 (changed timing and content).	No	X	X
Newborn Screening (blood and other tests)	Bright Futures		Yes	New recommendation after baseline.	No	X	
Immunizations	Bright Futures	ACIP (select recommendations lost or maintained)	Yes	New recommendation after baseline. Went into effect in 2014.	No	X	X

ACA Preventive Services	ACA preventive services bundle	Does this recommendation overlap with another ACA bundle?	Were revisions made to this recommendation since 2010?	What is the nature of the revision since 2010?*	If Braidwood is upheld, would the service still be protected under the ACA? (ie, no cost-sharing?)	Is this a maternal & infant health (<1 year) preventive service?	Is this a child & adolescent health preventive service? (ages 1-21)
Cervical Dysplasia Testing	Bright Futures		Yes	New recommendation after baseline. Went into effect 2014 (no longer routinely screening under age 21)	No		X
Cardiovascular risk reduction	Bright Futures		Yes	New recommendation after baseline. Went into effect 2011	No		X
Dyskuoudenua screening test	Bright Futures		Yes	New recommendation after baseline. Went into effect 2014; updated notes/references 2017	No	X	X
Universal prepubertal cholesterol screening	Bright Futures		Yes	New recommendation after baseline.	No		X
Universal cholesterol screening in late adolescence	Bright Futures		Yes	New recommendation after baseline.	No		X
Fluoride Varnish	Bright Futures	USPSTF (recommendation lost)	Yes	New recommendation after baseline. Went into effect 2015; text updated 2023	No	X	Already counted above
Assess/confirm dental home	Bright Futures		Yes	New recommendation after baseline. Went into effect 2017	No		X

ACA Preventive Services	ACA preventive services bundle	Does this recommendation overlap with another ACA bundle?	Were revisions made to this recommendation since 2010?	What is the nature of the revision since 2010?*	If Braidwood is upheld, would the service still be protected under the ACA? (ie, no cost-sharing?)	Is this a maternal & infant health (<1 year) preventive service?	Is this a child & adolescent health preventive service? (ages 1-21)
Maternal Depression Screening	Bright Futures	USPSTF (recommendation lost)	Yes	New recommendation after baseline. Went into effect 2020, updated notes/references in 2021.	No	Already counted above	
Psychosocial/Behavioral Screening	Bright Futures		Yes	New recommendation after baseline. One set of revisions went into effect in 2017 (included annual screen with SDOH); updated recommendations in 2023	No	X	X
Depression and Suicide Risk Screening	Bright Futures	USPSTF (recommendation lost for all children and adolescents that are in settings that don't have the capacity to screen/refer)	Yes	New recommendation after baseline. Depression screening for ages 11-21 added and went into effect in 2014; another update went into effect in 2017 with screenings to begin at age 12 based on USPSTF; update went into effect in 2023 to include suicide screening	No		Already counted above
Tobacco, Alcohol, or Drug Use Assessment	Bright Futures	USPSTF (recommendation lost for adolescents)	Yes	New recommendation after baseline. Went into effect in 2014 (added recommended tool CRAFFT).	No		X (Already counted above for 18-21, counting here for adolescents)
Sudden Cardiac Arrest/Death	Bright Futures		Yes	Went into effect in 2019; updated notes / references in 2021- change to timing and content	No		x

ACA Preventive Services	ACA preventive services bundle	Does this recommendation overlap with another ACA bundle?	Were revisions made to this recommendation since 2010?	What is the nature of the revision since 2010?*	If Braidwood is upheld, would the service still be protected under the ACA? (ie, no cost-sharing?)	Is this a maternal & infant health (<1 year) preventive service?	Is this a child & adolescent health preventive service? (ages 1-21)
Adolescent Hearing Screening	Bright Futures		Yes	New recommendation after baseline. Went into effect in 2017.	No		x
Hepatitis C Virus Infection Testing	Bright Futures	USPSTF (recommendation lost)	Yes	New recommendation after baseline. Went into effect 2021 (based on USPSTF for 18-79 year olds)	No		X (Already counted above for 18-21, counting here for 1.5 year old scan if maternal risk factors exist)
Hepatitis B Virus Infection Testing	Bright Futures	USPSTF (recommendation maintained for adolescents at increased risk)	Yes	New recommendation after baseline (went into effect 2023). Recommendation partially maintained via USPSTF (but just for adolescents at increased risk)	Population lost: Eliminates coverage of adolescents at "low risk"	Already counted above	Already counted above for adolescents
HIV Testing	Bright Futures	USPSTF (recommendation maintained only for "high risk" and pregnant persons), WPSI (recommendation lost)	Yes	New recommendation after baseline. Went into effect 2014; changed to 15-18 in 2017 to be consistent with USPSTF; changed to 18-21 in 2023 to be consistent with USPSTF	Population lost: Eliminates coverage of adolescents at "low risk"		Already counted above for adolescents

ACA Preventive Services	ACA preventive services bundle	Does this recommendation overlap with another ACA bundle?	Were revisions made to this recommendation since 2010?	What is the nature of the revision since 2010?*	If Braidwood is upheld, would the service still be protected under the ACA? (ie, no cost-sharing?)	Is this a maternal & infant health (<1 year) preventive service?	Is this a child & adolescent health preventive service? (ages 1-21)
Breastfeeding education and counseling	Bright Futures	WPSI (recommendation lost), USPSTF (recommendation maintained)	Yes	New recommendation after baseline (went into effect 2012), but recommendation maintained via USPSTF recommendations	Yes	Already counted above	
Fluoride Supplementation	Bright Futures	USPSTF (recommendation maintained)	Yes	New recommendation after baseline (went into effect 2023), but recommendation maintained via USPSTF recommendations	Yes	X	Already counted above
Sexually Transmitted Infection Testing	Bright Futures	USPSTF (recommendations for syphilis lost)	Yes	Went into effect pre-2010; minor updated note/references & changes to content in 2017	Yes		x
Developmental Screening	Bright Futures		Yes	Went into effect 2008; minor updated notes/references in 2020	Yes	X	x
Anemia Testing	Bright Futures		Yes	Went into effect in 2019; minor updated notes/references in 2021	Yes	X	x
Lead Testing	Bright Futures		Yes	Went into effect pre-2010; minor updated notes/references in 2012, 2014, 2019, & 2021	Yes	X	x
Child health advice as part of prenatal visit	Bright Futures		Yes	Went into effect 2009; minor updated notes/references 2014	Yes	X	

ACA Preventive Services	ACA preventive services bundle	Does this recommendation overlap with another ACA bundle?	Were revisions made to this recommendation since 2010?	What is the nature of the revision since 2010?*	If Braidwood is upheld, would the service still be protected under the ACA? (ie, no cost-sharing?)	Is this a maternal & infant health (<1 year) preventive service?	Is this a child & adolescent health preventive service? (ages 1-21)
Body Mass Index Measurements	Bright Futures	USPSTF (recommendation maintained)	Yes	Went into effect in 2007; minor updated notes/references in 2014	Yes	X	x
Young Child Hearing Screening	Bright Futures		Yes	Went into effect in 2007; minor updated notes references in 2014; hearing infant visits went into effect in 2017	Yes	X	
Autism Spectrum Disorder Screening	Bright Futures		Yes	Went into effect in 2007; minor updated notes/references in 2014 and 2021	Yes		x
Pediatrician oral health check	Bright Futures		No	Went into effect pre-2010	Yes		x
Length/Height and Weight Measurements	Bright Futures		No	Went into effect pre-2010	Yes	X	x
Head Circumference Measurements	Bright Futures		No	Went into effect pre-2010	Yes	X	
Weight for Length Measurements	Bright Futures		No	Went into effect pre-2010	Yes	X	

ACA Preventive Services	ACA preventive services bundle	Does this recommendation overlap with another ACA bundle?	Were revisions made to this recommendation since 2010?	What is the nature of the revision since 2010?*	If Braidwood is upheld, would the service still be protected under the ACA? (ie, no cost-sharing?)	Is this a maternal & infant health (<1 year) preventive service?	Is this a child & adolescent health preventive service? (ages 1-21)
Vision Screening	Bright Futures	USPSTF (recommendation maintained)	No	Went into effect pre-2010	Yes	X	x
Tuberculosis Testing	Bright Futures		No	Went into effect pre-2010	Yes	X	x
<b>Advisory Committee on Immunization Practices (ACIP)</b>							
Cholera	ACIP			Added after baseline	No		
COVID-19	ACIP			Added after baseline	No	X	X
Dengue	ACIP			Added after baseline	No		X
DTaP-IPV-Hib-HepB	ACIP			Added after baseline	No	X	
Ebola	ACIP			Added after baseline	No		

ACA Preventive Services	ACA preventive services bundle	Does this recommendation overlap with another ACA bundle?	Were revisions made to this recommendation since 2010?	What is the nature of the revision since 2010?*	If Braidwood is upheld, would the service still be protected under the ACA? (ie, no cost-sharing?)	Is this a maternal & infant health (<1 year) preventive service?	Is this a child & adolescent health preventive service? (ages 1-21)
Orthopoxviruses (Smallpox & Monkeypox)	ACIP			Monkeypox added as of 2022	No		
Respiratory Syncytial Virus (RSV)	ACIP			RSV added as of 2023	No	X	
Meningococcal	ACIP			In 2011, adolescents added	Population lost: Eliminates adolescents		X
Hep B	ACIP			In 2022, "low risk" individuals 19-59 added	Population lost: Eliminates "low risk" individuals 19-59	X	X
HPV	ACIP			In 2019, males 22-26 added	Population lost: Eliminates males 22-26		X (Population lost is 22-26, so service maintained for children/youth)
Anthrax	ACIP			In 2019, changes in dosage frequency for those using for PrEP	Essential post-2010 elements eliminated		
Varicella (Chickenpox)	ACIP			In 2013, VarZIG approved for use with those who cannot use the varicella vaccine	Essential post-2010 elements eliminated	X	X

ACA Preventive Services	ACA preventive services bundle	Does this recommendation overlap with another ACA bundle?	Were revisions made to this recommendation since 2010?	What is the nature of the revision since 2010?*	If Braidwood is upheld, would the service still be protected under the ACA? (ie, no cost-sharing?)	Is this a maternal & infant health (<1 year) preventive service?	Is this a child & adolescent health preventive service? (ages 1-21)
Rabies	ACIP			In 2019, changes in dosage frequency for those using for PrEP	Essential post-2010 elements eliminated		
MMR/MMRV	ACIP			Added in 1998/2008	Yes		X
Pneumococcal	ACIP			New vaccine introduced in February 2010 that supersedes previous PCV7	Yes	X	X
Yellow Fever	ACIP			Added in 2002	Yes		
Hib	ACIP			Added in 1993	Yes	X	X
Dtap-Tdap-Td	ACIP			Added in 2006	Yes	X	X
Hep A	ACIP			Added in 2006	Yes	X	X
Influenza	ACIP			Added in 2009	Yes	X	X

Is this a maternal & infant health (<1 year) preventive service?	Is this a child & adolescent health preventive service? (ages 1-21)
Japanese Encephalitis	ACIP			Added in 2010	Yes		
Polio	ACIP			Added in 2003	Yes	X	X
Rotavirus	ACIP			Added in 2006	Yes	X	
Typhoid	ACIP			Added in 1994	Yes		
Zoster (Shingles)	ACIP			Added in 2008	Yes		
<b>TOTAL</b>					<b>48 total ACA preventive services <u>protected</u></b>	<b>58 total maternal and infant services across the four ACA bundles (see next page for 67 additional RUSP services)</b>	<b>55 total child and adolescent health services across the four ACA bundles</b>

ACA Preventive Services	ACA preventive services bundle	Were revisions made to this recommendation since 2010?	What is the nature of the revision since 2010?*	If Braidwood is upheld, would the service still be protected under the ACA? (ie, no cost-sharing?)
<b>Recommended Uniform Screening Panel (RUSP) for Newborns</b>				
Propionic Acidemia	RUSP	Yes	Went into effect May 2010	No
Methylmalonic Acidemia (methylmalonyl-CoA mutase)	RUSP	Yes	Went into effect May 2010	No
Methylmalonic Acidemia (Cobalamin disorders)	RUSP	Yes	Went into effect May 2010	No
Isovaleric Acidemia	RUSP	Yes	Went into effect May 2010	No
3-Methylcrotonyl-CoA Carboxylase Deficiency	RUSP	Yes	Went into effect May 2010	No
3-Hydroxy-3-Methylglutaric Aciduria	RUSP	Yes	Went into effect May 2010	No
Holocarboxylase Synthase Deficiency	RUSP	Yes	Went into effect May 2010	No
β-Ketothiolase Deficiency	RUSP	Yes	Went into effect May 2010	No
Glutaric Acidemia Type I	RUSP	Yes	Went into effect May 2010	No
Carnitine Uptake Defect/Carnitine Transport Defect	RUSP	Yes	Went into effect May 2010	No
Medium-chain Acyl-CoA Dehydrogenase Deficiency	RUSP	Yes	Went into effect May 2010	No
Very Long-chain Acyl-CoA Dehydrogenase Deficiency	RUSP	Yes	Went into effect May 2010	No
Long-chain L-3 Hydroxyacyl-CoA Dehydrogenase Deficiency	RUSP	Yes	Went into effect May 2010	No
Trifunctional Protein Deficiency	RUSP	Yes	Went into effect May 2010	No

ACA Preventive Services	ACA preventive services bundle	Were revisions made to this recommendation since 2010?	What is the nature of the revision since 2010?*	If Braidwood is upheld, would the service still be protected under the ACA? (ie, no cost-sharing?)
Argininosuccinic Aciduria	RUSP	Yes	Went into effect May 2010	No
Citrullinemia, Type I	RUSP	Yes	Went into effect May 2010	No
Maple Syrup Urine Disease	RUSP	Yes	Went into effect May 2010	No
Homocystinuria	RUSP	Yes	Went into effect May 2010	No
Classic Phenylketonuria	RUSP	Yes	Went into effect May 2010	No
Tyrosinemia, Type I	RUSP	Yes	Went into effect May 2010	No
Guanidinoacetate Methyltransferase Deficiency	RUSP	Yes	Added January 2023	No
Primary Congenital Hypothyroidism	RUSP	Yes	Went into effect May 2010	No
Congenital adrenal hyperplasia	RUSP	Yes	Went into effect May 2010	No
S,S Disease (Sickle Cell Anemia)	RUSP	Yes	Went into effect May 2010	No
S, beta-Thalassemia	RUSP	Yes	Went into effect May 2010	No
S,C Disease	RUSP	Yes	Went into effect May 2010	No
Biotinidase Deficiency	RUSP	Yes	Went into effect May 2010	No
Cystic Fibrosis	RUSP	Yes	Went into effect May 2010	No
Classic Galactosemia	RUSP	Yes	Went into effect May 2010	No

ACA Preventive Services	ACA preventive services bundle	Were revisions made to this recommendation since 2010?	What is the nature of the revision since 2010?*	If Braidwood is upheld, would the service still be protected under the ACA? (ie, no cost-sharing?)
Glycogen Storage Disease Type II (Pompe)	RUSP	Yes	Added March 2, 2015	No
Severe Combined Immunodeficiencies	RUSP	Yes	Added May 21, 2010	No
Mucopolysaccharidosis Type I	RUSP	Yes	Added February 16, 2016	No
X-linked Adrenoleukodystrophy	RUSP	Yes	Added February 16, 2016	No
Spinal Muscular Atrophy due to homozygous deletion of exon 7 in SMN1	RUSP	Yes	Added July 2, 2018	No
Mucopolysaccharidosis Type II	RUSP	Yes	Went into effect May 2010	No
Methylmalonic acidemia with homocystinuria	RUSP	Yes	Went into effect May 2010	No
Malonic acidemia	RUSP	Yes	Went into effect May 2010	No
Isobutyrylglycinuria	RUSP	Yes	Went into effect May 2010	No
2-Methylbutyrylglycinuria	RUSP	Yes	Went into effect May 2010	No
3-Methylglutaconic aciduria	RUSP	Yes	Went into effect May 2010	No
2-Methyl-3-hydroxybutyric aciduria	RUSP	Yes	Went into effect May 2010	No
Short-chain acyl-CoA dehydrogenase deficiency	RUSP	Yes	Went into effect May 2010	No
Medium/short-chain L-3-	RUSP	Yes	Went into effect May 2010	No

ACA Preventive Services	ACA preventive services bundle	Were revisions made to this recommendation since 2010?	What is the nature of the revision since 2010?*	If Braidwood is upheld, would the service still be protected under the ACA? (ie, no cost-sharing?)
hydroxyacyl-CoA dehydrogenase deficiency	RUSP	Yes	Went into effect May 2010	No
Glutaric acidemia type II	RUSP	Yes	Went into effect May 2010	No
Medium-chain ketoacyl-CoA thiolase deficiency	RUSP	Yes	Went into effect May 2010	No
2,4 Dienoyl-CoA reductase deficiency	RUSP	Yes	Went into effect May 2010	No
Carnitine palmitoyltransferase type I deficiency	RUSP	Yes	Went into effect May 2010	No
Carnitine palmitoyltransferase type II deficiency	RUSP	Yes	Went into effect May 2010	No
Carnitine acylcarnitine translocase deficiency	RUSP	Yes	Went into effect May 2010	No
Argininemia	RUSP	Yes	Went into effect May 2010	No
Citrullinemia, type II	RUSP	Yes	Went into effect May 2010	No
Hypermethioninemia	RUSP	Yes	Went into effect May 2010	No
Benign hyperphenylalaninemia	RUSP	Yes	Went into effect May 2010	No
Biopterin defect in cofactor biosynthesis	RUSP	Yes	Went into effect May 2010	No
Biopterin defect in cofactor regeneration	RUSP	Yes	Went into effect May 2010	No
Tyrosinemia, type II	RUSP	Yes	Went into effect May 2010	No

ACA Preventive Services	ACA preventive services bundle	Were revisions made to this recommendation since 2010?	What is the nature of the revision since 2010?*	If Braidwood is upheld, would the service still be protected under the ACA? (ie, no cost-sharing?)
Tyrosinemia, type III	RUSP	Yes	Went into effect May 2010	No
Various other hemoglobinopathies	RUSP	Yes	Went into effect May 2010	No
Galactosepimerase deficiency	RUSP	Yes	Went into effect May 2010	No
Galactokinase deficiency	RUSP	Yes	Went into effect May 2010	No
T-cell related lymphocyte deficiencies	RUSP	Yes	Went into effect May 2010	No
Hearing Screening	RUSP	Yes	Went into effect May 2010	No
Newborn Bilirubin	RUSP	Yes	Went into effect 2017	No
Critical Congenital Heart Defect	RUSP		Added September 21, 2011	No
				<b>0 RUSP services protected</b>
