

Table 1. Preventive Benefit Recommendations of Special Significance for Older Working-Age Adults, Added Post-ACA Enactment (N=27)

Benefit	New or Revised Recommendation	Nature of post-2010 Revision	Source of Expert Recommendation
Screening adults for anxiety disorders	New recommendation	N/A	USPSTF
Risk assessment, counseling, and genetic testing for BRCA-related breast cancer gene	Revised since 2010	Expands population and services/conditions targeted in recommendation	USPSTF
Medication to reduce risk of breast cancer	Revised since 2010	Expands population and services/conditions targeted in recommendation	USPSTF
Screening for cervical cancer	Revised since 2010	Expands population and interventions targeted in recommendation	USPSTF WPSI
Colorectal cancer screening	New recommendation	N/A	USPSTF
Screening adults for depression and suicide risk	Revised since 2010	Expands population targeted in recommendation	USPSTF
Preventing falls in older adults who live in the community	New recommendation	N/A	USPSTF
Screening for hepatitis B virus infection in adolescents and adults	Revised since 2010	Grade change (D to B) Modifies population targeted in recommendation	USPSTF
Screening for hepatitis C virus Infection in adolescents and adults	Revised since 2010	Grade change (D to B) Modifies population targeted in recommendation	USPSTF

Screening for human immunodeficiency virus (HIV)	Revised since 2010	Expands population targeted in recommendation	USPSTF WPSI
Screening adults for latent tuberculosis infection	Revised since 2010	Expands population targeted in recommendation	USPSTF
Lung cancer screening	Revised since 2010	Grade change (I to B) Modifies population targeted in recommendation	USPSTF
Osteoporosis screening to prevent fractures	Revised since 2010	Expands population targeted in recommendation	USPSTF
Prevention of HIV infection: preexposure prophylaxis for people at high risk of HIV	New recommendation	N/A	USPSTF
Statins for the primary prevention of cardiovascular disease in adults	Revised since 2010	Expands population targeted in recommendation	USPSTF
Screening for unhealthy drug use	Revised since 2010	Grade change (I to B) Modifies population targeted in recommendation	USPSTF
Pneumococcal vaccine	Revised since 2010	Modified population targeted and clinical guidelines	ACIP
Influenza vaccine	Revised since 2010	Modified clinical guidelines	ACIP
Meningococcal vaccine	Revised since 2010	Modified population targeted and clinical guidelines	ACIP
Hepatitis A vaccine	Revised since 2010	Modified population targeted and clinical guidelines	ACIP
Hepatitis B vaccine	Revised since 2010	Modified population targeted and clinical guidelines	ACIP
Varicella vaccine	Revised since 2010	Modified clinical guidelines	ACIP
Zoster vaccine, recombinant	Revised since 2010	Modified population targeted and clinical guidelines	ACIP

Should the Challengers Prevail in Braidwood Management v Becerra, Older Working-Age Adults Would Lose More Than Two Dozen Free Preventive Benefits. S. Rosenbaum, M. Casoni, R. Morris, C. Murphy (September 2023)

Measles, mumps, and rubella (MMR) vaccine	Revised since 2010	Modified clinical guidelines	ACIP
COVID-19	New recommendation	N/A	ACIP
Tetanus, diphtheria, and pertussis (Tdap) vaccination	Revised since 2010	Modified clinical guidelines	ACIP
Respiratory Syncytial Virus (RSV) vaccine	Revised since 2010	Modified clinical guidelines	ACIP
