

New Mexico Health Centers

Community health centers (CHCs) provide comprehensive, high-quality primary and preventive care and reduce overall costs for the health care system. CHCs depend primarily on Medicaid and federal grant funding to operate.

Proposals to cut federal Medicaid funding by imposing work requirements and other barriers to enrollments are a major threat to CHC patient coverage, health centers, and their communities.

302,973
CHC patients

New Mexico's CHC patients are from varied populations, including more than:

- 58,000 children birth to age 18
- 184,000 adults ages 18 to 64
- 59,000 older adults age 65+

119,881
CHC patients
in Medicaid

- 80,000 CHC adult patients 18 to 64 covered by Medicaid
