

Wyoming Health Centers

Community health centers (CHCs) provide comprehensive, high-quality primary and preventive care and reduce overall costs for the health care system. CHCs depend primarily on Medicaid and federal grant funding to operate.

Proposals to cut federal Medicaid funding by imposing work requirements and other barriers to enrollment are a major threat to CHC patient coverage, health centers, and their communities.

34,478
CHC patients

Wyoming's CHC patients are from varied populations, including more than:

- 7,900 children birth to age 18
- 20,000 adults ages 18 to 64
- 5,900 older adults age 65+

7,392
CHC patients
in Medicaid

- 3,000 CHC adult patients 18 to 64 covered by Medicaid

1 in 10 Medicaid enrollees served by CHCs
